

SPG Saddle Clip Fixing for Grates

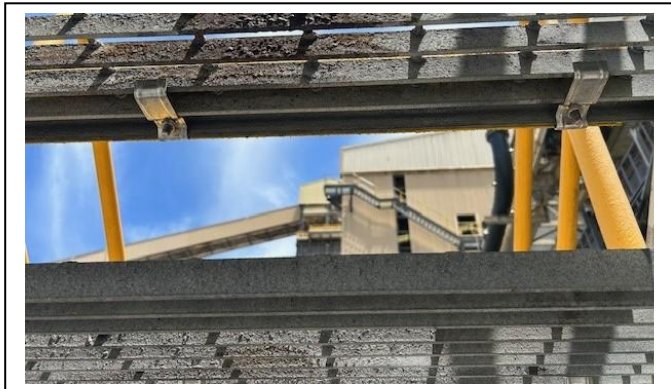

Engineered for safety. Built to last.

SPG Saddle Clip Fixing Assembly

SPG Saddle Clip Assemblies for secure fixing to grated floor and steps

SPG Saddle Clip Assemblies are designed for the secure installation of plates, stair nosing and other components to grated floors and stair treads

Each assembly consists of stainless-steel saddle clip with welded nut supplied with M8 Socket button head bolt pre coated with Loctite. The thread locking compound activates during installation to provide secure vibration resistant fastening.

This ready to install two component stainless steel assembly improves installation efficiency while ensuring reliable fixing to grating structure.

Alternative options

Staircare also offers SPG saddle clip with

- Loose nut, spring washer and M8 bolt
- Loose Nylock nut with M8 Bolt

Specification Note

For secure and reliable fixing to grates, specify Staircare SPG saddle Clip Assemblies.
